

**"When you look at PacifiCorp, there's some evidence of autonomy and corporate commitment there. So it seems as if it's not uncommon to let a company micromanage itself. So you sort of hope for the best and that Constellation and the successor to Constellation maintains its corporate presence."**

*Donald C. Fry*  
*President & CEO, Grater Baltimore Committee*

**"We've lost another one — or we think that we have. Hopefully we will retain some components of Constellation Energy that will keep some jobs here, but surely if the headquarters of the buyer is located out of state, Maryland takes a hit on its tax revenue."**

*Kathleen T. Snyder*  
*President, Maryland Chamber of Commerce*

**"Constellation has been one of our best corporate citizens. It has been very philanthropic and supportive of improvements downtown, and it has one of the most talented pools of labor in the city. We hope whatever happens Constellation maintains its presence in the community."**

*J. Kirby Fowler Jr.*  
*President, Downtown Partnership of Baltimore Inc.*
